

Hi [First Name],

Every day your finance team spends wrangling data from Excel, emailing version 7 of a budget model, or waiting on IT to pull a report — **you're losing time, clarity, and momentum.**

You're not alone.

But the CFOs who are outpacing their peers? They've moved on — and forward — with **QuortixIQ**.

The Data Problem Isn't Volume. It's Visibility.

You've got more numbers than ever.

But if they live in silos, lag behind reality, or require a full-time analyst just to make sense of them, they're not helping you make smarter decisions — they're slowing you down.

"What used to take two weeks now takes two hours."

— Dana Wells, VP of Finance, Acme Corp

QuortixIQ helped her team cut reporting time by 80%. Not by working harder — by seeing more, faster.

Imagine this instead:

- Real-time dashboards across every business unit, updated automatically
- AI-powered forecasts that adapt to your data — not generic templates
- Budget variance alerts before things spiral
- One platform your analysts actually enjoy using — no SQL, no delays
- A close process that runs in days, not weeks

And most importantly, ***you're not playing catch-up—you're leading.***

QuortixIQ Was Built for Modern CFOs.

Not IT. Not sales. Not marketing.

Just you — and your office of finance.

With seamless ERP and Excel integration, enterprise-grade scalability, and a finance-native interface, QuortixIQ gets your team out of the weeds and into the strategy room.

It's already powering finance teams in manufacturing, SaaS, healthcare, and logistics. .

And every one of them asked the same thing after seeing it:

"Why didn't we do this sooner?"

Ready to See It in Action?

Don't wait until your competitors are closing faster, forecasting better, and spending smarter while you're still copying formulas across tabs.

Book a demo of QuortixIQ today — and see what your team could do with clarity instead of chaos.

The future of finance isn't built on spreadsheets. It's built on foresight... ***hyper-fast foresight.***

Sincerely,

The QuortixIQ Team
